ManyBooks is one of the best resources on the web for free books in a variety of download formats. There are hundreds of books available here, in all sorts of interesting genres, and all of them are completely free. One of the best features of this site is that not all of the books listed here are classic or creative commons books. ManyBooks is in transition at the time of this writing. A beta test version of the site is available that features a serviceable search capability. Readers can also find books by browsing genres, popular selections, author, and editor's choice. Plus, ManyBooks has put together collections of books that are an interesting way to explore topics in a more organized way.

End The Fed Ron Paul

Most people think of the Fed as an indispensable institution without which the country's economy could not properly function. But in End the Fed, Ron Paul draws on American history, economics, and fascinating stories from his own long political life to argue that the Fed is both corrupt and unconstitutional. It is inflating currency today at nearly a Weimar or Zimbabwe level, a practice that threatens to put us into an inflationary depression where \$100 bills are worthless.

End the Fed: Paul, Ron: 9780446549196: Amazon.com: Books

End the Fed is a 2009 book by Congressman Ron Paul of Texas. The book debuted at number six on the New York Times Best Seller list and advocates the abolition of the United States Federal Reserve System "because it is immoral, unconstitutional, impractical, promotes bad economics, and undermines liberty."

End the Fed - Wikipedia

Ron Paul's, "End the FED" serves as a grand demonstration of God's providence ordering all things that come to pass. He does not state this in the book. However, in it, the truth is exposed about how the U.S. monetary system has morphed into little more than a house of cards ready to collapse at any moment.

End the Fed by Ron Paul - Goodreads

End the Fed is, simply put, a must-read for every American who can spell his name. End the Fed , by Ron Paul, New York: Grand Central Publishing, 2009, 212 pages, hard cover. (To order, click [here...](#)

A Review of "End the Fed" by Ron Paul - The New American

Paul believes the artificial economic boom based on inflated fiat currency, which started in 1971, basically came to an end in 2000 with the stock market crash led by the tech sector. Since then the economy has struggled to improve and the average American has hardly prospered at all.
