Because this site is dedicated to free books, there's none of the hassle you get with filtering out paid-for content on Amazon or Google Play Books. We also love the fact that all the site's genres are presented on the homepage, so you don't have to waste time trawling through menus. Unlike the bigger stores, Free-Ebooks.net also lets you sort results by publication date, popularity, or rating, helping you avoid the weaker titles that will inevitably find their way onto open publishing platforms (though a book has to be really quite poor to receive less than four stars).

It does not have the rigor of Giancoli. Regarding Hewitt and Halliday and Resnick. Hewitt deserves its fame as a great conceptual physics book. However I would like to see more problems included. I learned physics from the second edition of Halliday and Resnick. I recently used the 7th edition while working with a student.
