defined and standardized process for the purchase of other radiation therapy equipment, it is not nearly as clear-cut for RTPSs. For example, with the purchase of a linear accelerator, the purchaser and manufacturer agree on a set of specifications (frequently defined by the manufacturer), and then the ...

Specification and

Where To Download Linear Accelerator **Acceptance Testing of Radiotherapy ...**

When a new linear accelerator is installed at a department it is of great importance that it is carefully controlled and calibrated before being put into clinical use. This is done with the acceptance test (AT). The mechanical parameters, the beam performance and the reproducibility of the dose output are tested.
