Formal Method. in literary scholarship, a view that form is the predominant element in literature and is capable of independent development. To a certain extent, the foundation of the formal method was laid by neo-Kantianism. The formal method emerged as a distinct trend in the late 19th century, at first as a reaction to impressionist literary criticism and to positivist trends in literary theory and art studies, for example, the school of cultural history in literary scholarship.

His chief purpose here, is to show how the formal method, by gradually evolving and broadening its field of research, spread beyond the usual methodological limits and became a special science of literature, a specific ordering of facts. He says that formalists focus on the empirical study of material, which is historically good.

The Theory of the Formal Method by Boris Eichenbaum

Formalism is a school of literary criticism and literary theory having mainly to do with structural purposes of a particular text. It is the study of a text without taking into account any outside influence. Formalism rejects or sometimes simply "brackets" notions of culture or societal influence, authorship, and content, and instead focuses on modes, genres, discourse, and forms.

Formalism (literature) - Wikipedia

Although the Formalists based their assumptions partly on the linguistic theory of Ferdinand de Saussure and partly on Symbolist notions concerning the autonomy of the text and the discontinuity between literary and other uses of language, the Formalists sought to make their critical discourse more objective and scientific than that of Symbolist criticism. Allied at one point to the Russian Futurists and opposed to sociological criticism, the Formalists placed an “emphasis on the medium ...
